

ThriveOn Concepts' LeaderForward Academy brings together small cohorts of high-performers monthly with a single purpose; to gain significant, measurable improvements in their leadership performance. We do this with relevant practical curriculum, coaching, facilitation, sharing of best practices, and accountability — all directly connected to each participant's work situation and performance goals.

"The **Leader Forward Academy** has given me an opportunity to see who I am as a person and as a leader, and allowed me to recognize areas of strength and areas in which I can improve upon through coaching, leader facilitation and training, and through connections and relationships with others in my cohort."

— Emily Hoffman
Liberty Public School District

WHY LEADERFORWARD ACADEMY WORKS

- Drives results with coaching and ongoing support
- Develops leadership knowledge for a better talent pool
- Increases self-awareness using globally recognized assessments
- Teaches successful coaching and feedback techniques
- Involvement of key organizational stakeholders
- Proven curriculum from the Center for Executive Coaching
